步驟七:Download單一產品

透過All Access Download單一產品,執行單一產品,就不會再要求產品註冊

The screenshot shows two overlapping browser windows. The top window displays the Embarcadero All-Access homepage with three main categories: Application Development (Delphi 2010), Database Management and Monitoring (DBArtisan 8.7, Rapid SQL), and Design and Architecture (ER/Studio Data Architect 8.5). A blue arrow points from the ER/Studio 8.5 product card in the top window to the bottom window. The bottom window shows the download page for ER/Studio Data Architect 8.5, featuring a version selector (8.0.3 and 8.5), an 'InstantOn™' button, and an 'Install' button. Below the buttons, there are options for 'Available Files' (www.embarcadero.com - Windows - English) and a checkbox for 'This is the default launcher'. At the bottom, there are links for 'InstantOn™', 'Copy to Local', and 'Help & Guides'.
